

Manufacturer Highlights 2023

Manufacturer	Booth	News/Highlights
	A2.460	In addition to the Alpha product line-up, REC will also be presenting the TwinPeak 5 modules with black and white backsheet. In the "Installer Corner", visitors will get all the news about the REC Channel programme. You can also look forward to live demos of REC tools (ProPage, Proportal, etc.) and the Happy Hour from 4 pm on the first day of the fair.
	A1.190	<p>More Options, More Design, More Flexibility – this is Luxor Solar's slogan for this year's Intersolar. With the introduction of the M10 heterojunction cell, our partner can offer the same modular architectures and dimensions across technologies, regardless of cell technology. This allows for more flexibility in a system's design. The following new products will be showcased:</p> <ul style="list-style-type: none"> ▪ N-Type TOPCon models for rooftop and large-scale systems ▪ N-Type HJT (novelty: M10) for rooftop and large-scale systems ▪ Non-reflect solar module (low reflection, especially suitable for airports/motorways or densely populated residential areas) ▪ Smart (integrated SolarEdge or Tigo optimization) ▪ Glass-Glass 1.6 mm + 1.6 mm (weight-reduced) <p>Do not miss the legendary "Get Together" which takes place on the first day of the trade fair from 6 pm.</p>
	A1.370 A1.490	<p>Trina Solar shows its comprehensive product range which is comprised of mounting systems, energy storage systems and solar modules. The highlights are:</p> <ul style="list-style-type: none"> ▪ Vertex S+ N-type double-glass modules for rooftop applications ▪ Vertex N modules for lowest cost of electricity in large-scale solar projects ▪ Trina Storage Elementa, the vertically integrated battery storage system for large-scale installations (Nominee EES Award)
	A2.190 A2.280	On display: the current product and service portfolio
	A2.170	On display: the current product and service portfolio
	B4.310 B4.410	<p>"True sustainability" is Fronius' motto this year. The complete product range will be on display. Our partner will focus on:</p> <ul style="list-style-type: none"> ▪ Residential solutions: sector coupling, new battery compatibilities, backup systems, solutions for connecting the heating sector. ▪ Commercial solutions: Fronius Tauro ▪ Digital solutions: Solar.creator, Solar.start, monitoring solutions, Solar.SOS (online support) ▪ E-mobility: EMIL (charging management solution) and Wattpilot

Manufacturer Highlights 2023

Manufacturer	Booth	News/Highlights
	B3.210	<p>Many new products await visitors to the SMA stand, for instance:</p> <ul style="list-style-type: none"> the new single-phase Sunny Boy Smart Energy the new SMA eCharger (nominee for Power2Drive Award 2023) Integration of heat pumps with the SMA Sunny Home Manager and cooperation with Samsung Smart Things Live presentations of SMA Commercial Energy Solutions (storage, electromobility, C&I services)
	B3.130	<p>Many innovations await trade fair visitors at the KOSTAL booth. Among others, the commercial inverter PIKO C1100, the PLENTICORE G3 with backup power and a higher output of up to 20 kW and the KOSTAL Solar Terminal will be premiering. You can also look forward to the KOSTAL wallbox Enector 7.4 for single-phase devices, the Energy Meter families and news on the topic of sector coupling. On 14 June, our partner is hosting its traditional stand party.</p>
	B3.350	<p>At this year's Intersolar 2023, Delta Electronics will be presenting solutions for electromobility (EV chargers), energy storage and photovoltaics. You can look forward to the entire inverter range from 5 to 125 kVA output: This includes the new M15A/M10A/M5A (residential), the M70A/M50A/M30A (commercial) and the M125HV/M100A (megawatt range).</p>
	B4.110 B4.119	On display: the current product and service portfolio
	Halle C1 (various booths)	<p>Huawei's products have been shortlisted for two of the accompanying competitions at Intersolar:</p> <ul style="list-style-type: none"> SUN2000-330KTL, the high-performance string inverter for ground-mounted systems (Nominee: Intersolar Award 2023) FusionSolar Residential Smart String ESS LUNA-2000-7/14/21-S1, a modular outdoor storage system (Nominee: EES Award 2023).
	B3.430	<p>The main focus of our partner Solis is on storage solutions for private applications as well as on the Solis C&I 80-110kW PRO inverter series. However, the entire product range from 600W to 255kW will be on display. For the German market, our partner expects a high level of attention for the recently introduced three-phase S6 hybrid inverters.</p>
	B3.110	<p>Among the product innovations at the KACO stand are new hybrid inverters with an output of 8, 10 and 12 kW. In addition, our partner will showcase solutions for commercial projects, e.g., inverters for commercial applications with an output of 50 and 60 kW or with 100 and 125 kW.</p>
	B4.171	On display: the current product and service portfolio

Manufacturer Highlights 2023

Manufacturer	Booth	News/Highlights
 Solar-Log™	B5.318	On display: the current product and service portfolio
	A6.280	K2 Systems will present product innovations for installation-friendly solar mounting. Among these are solutions for façade mounting, (K2 WallPV), a standardised and flexible system for nearly all car parks and a new outdoor system for small to medium-sized installations. Our partner will also be showcasing many exciting digital features for the planning software K2 Base and for the Resource Center, the popular online training center. On 14/06/2023 (6 pm.) K2 welcomes everybody to its stand party – save the date!
	A6.160	In addition to presenting the current product portfolio (e.g. ClickFit EVO, FlatFix Fusion, FlatFix Wave Plus), ESDEC will also give visitors a sneak peek into upcoming solutions. Other highlights: <ul style="list-style-type: none"> Try mounting on the test roofs. Discover the new e-learning system.
	B1.131 B1.130	BYD's trade fair appearance is themed "Zero Emission Eco System". In addition to electric mobility and solar PV applications, this includes the award-winning home and commercial storage units of the Battery-Box series.
	B1.410 C3.410	LG Energy Solution has been shortlisted for the EES Award 2023 for its S-Frame Pack. The storage module comes in a rack design for modular energy storage systems with an energy content of 17 kWh. It is based on the JH4 battery cell.
	B1.230	FENECON's Industrial L is a finalist for the EES Award 2023 which will be presented during Intersolar. The industrial storage system uses surplus or used vehicle batteries.
	B1.460	In addition to its well-known range of string, hybrid inverters and storage systems, RCT Power will launch a new product. Find out more in Munich!
	B6.514	Mennekes will provide information on all aspects of charging electric vehicles with PV surplus. Furthermore, our partner will showcase the AMTRON Compact 2.0s and Charge Control charging solutions.
	B1.230	Hardy Barth will be showcasing a variety of its charging columns and wallboxes at the FENECON booth. Visitors will also be informed about future features (integration of RFID modules).
