Zeversolar

Product advantages

“Energy for everybody“ – this is what the inverter manufacturer **Zeversolar** stands for. Founded in 2007, the company is now a 100% subsidiary of the leading inverter manufacturer SMA Solar Technology AG.

Zeversolar produces cost-effective, reliable solar inverters which are easy to use and which meet high quality and environmental standards. This is ensured by the German production know-how and the longtime experience of its parent company.

The Zeversolar product range includes inverters for residential applications, commercial solar plants as well as for solar power stations in the megawatt range. The warranty can be optionally extended to 10 years.

The European service center of Zeversolar is located in Kassel, Germany. This guarantees short reaction times and a fast exchange of equipment in case of failures. Zeversolar employs over 290 people and is certified according to ISO 9001:2008.

1. Reliable

- Quality assurance, development, and research is done together with the market leader SMA
- German jurisdiction in Düsseldorf
- Warranty extensions up to 10 years

2. Flexible

- Wide product range:
Zevelution: 1 - 3 kW, 1-phase, Wi-Fi included
Evershine: 4 - 10 kW, 3-phase, Wi-Fi included
Eversol: 15 - 20 kW, 3-phase, Wi-Fi optional
Zevelution Pro: project inverter, 33 kW
- Ambient temperature -25° C up to +60° C
- Lightweight, easy installation and easy maintenance

3. Efficient

- Wide voltage range for input voltage and MPPT-voltage
- Maximum conversion efficiency from 98.6 %, MPP-tracker efficiency up to 99.5 %
- Attractive price-performance ratio

4. User-friendly

- Reduced, user-friendly design
- Cloud-based plant monitoring via computer, tablet computer or smartphone
- Extensive customer support with global service centers
